Integrated Hydraulic Pump For MC500R

5-Position Safety Locking System

The MC500R from K&L Supply is the first step in high performance, hydraulic lifts. Along with a 39" maximum raised height and an 1,100 lb. capacity, the MC500R features a hand held remote control and a built-in, 110v, frame mounted hydraulic pump. This does away with pump stands and excess hose, keeping your service bays clear of extraneous clutter.

With a full range of available options, the MC500R can be tailored to meet any shops' requirements, whether you service bikes, quads and/or carts. K&L's build standard is reflected in the CE certification that the MC500R carries, our commitment to quality has never been easier and more affordable to harness for your shop.
