

# TSL SUPER LOADERS

The Autoquip TSL is a pit-mounted scissors lift built to work in conjunction with dock systems or alone to raise heavy objects and fork trucks.

Economical, adaptable solution for loading and transporting large, heavy containers.

## TYPICAL MARKETS

Automotive | Warehouse | Chemicals & Plastics | Air Cargo | Food & Drug | Ports

## KEY FEATURES

- Lubricated-for-life composite bearings on all pivot points
- Solid steel legs
- Platform surface constructed of 4-way floor plate
- Turned, ground, polished and hard-chromed axle pins
- Double-wire braided hydraulic hoses
- Velocity fuses on cylinders
- Heavy duty 5hp motor
- Rewired UL labeled and approved controls, ship loose
- Factory tested to 110% of capacity
- One-Piece hydraulic valve block
- Beveled toe guards
- 4" diameter bore rams with chrome plated rods to prevent rusting
- Platform gibbed rollers
- Roller end of legs are guided by platform runner bars
- Removable 48" high handrails
- Hardened steel rollers
- 12" x 72" throwover bridge with lifting chain
- 24 VAC controls (std)
- NEMA 4 wall mount pushbutton with 20' std. cord (shipped loose)

## OPTIONS

- Manual Bridge Winch
- Powered hydraulic bridges
- 4" wheel curbs for platform edges
- 115 VAC controls
- Remote 230VAC single phase power unit (speed at one half normal)

## BENEFITS

- Maintenance free bearings, no greasing
- Minimal platform deflection when raising and lowering
- Zero platform deflection in lowered position
- Perfect leg alignment under eccentric loads
- Extended bearing life
- Extended hose life for added safety
- High efficiency motor provides reliable raising times
- Easy servicing of hydraulic valve components
- Easy access to hydraulic/electrical components for servicing
- Minimal free fall in case of severed hose-Safety First!

## CUSTOM DESIGNS

- A number of "customized" Engineering designs are already on file for the TSL series. Additionally, Autoquip offers computerized engineering services for development of "one-of-a-kind" TSL applications.

## POWER SUPPLY

- Remote heavy-duty vertical style power unit with fan-cooled 5 hp 3-phase, 60 hertz motor, hydraulic reservoir, with Deltatrol valve. Runs on 208, 220, 230, 240, 440, 460, 480v. 3 phase 60 hertz
