Bishamon EZ Off Lifter® pallet positioners are the ultimate solution for palletizing operations when loads are transported with a pallet truck. These revolutionary products provide the answer for maintaining the load at a convenient working height. They also provide easy pallet rotation and near side loading to eliminate excessive lifting, bending, and stretching. They are the most ergonomically advanced way to manually load or unload pallets in applications where the loaded pallets are transported with a pallet truck.

EZ Off Lifter pallet positioners improve productivity and worker safety. By bringing the load closer to the worker, they reduce the time required to manually load or unload a pallet. They also help improve safety and reduce worker fatigue.

EZ Off Lifters are electric hydraulic operation, providing infinite height adjustments between the upper and lower travel limits with a convenient push button control.

Like all Bishamon products, EZ Off Lifters are designed and manufactured to meet the toughest working conditions and safety standards in the world. They will provide years of trouble free operation.

**Warranty** - Bishamon Industries Corp. ("Bishamon") warrants its products to be free from defects in material and workmanship for a period of one (1) year from the date of initial shipment. This warranty shall not apply to any misuse, mishandling, accident, shipping, alteration, or unauthorized repair of any Bishamon product or part. For complete details of warranty, please contact Bishamon at 800-358-8833.

*Pallet Truck Accessible Work Positioners*

---

**EZ-25E**

- **Operation:** Elec-Hydraulic
- **Voltage:** 115V, 1PH
- **Capacity (lbs):** 2500
- **Lowered Height (in):** 1.75
- **Raised Height (in):** 30.00
- **Maximum Pallet Size (in):** 44 x 48
- **Ramp Positions:** 1
- **Installation:** Not Anchored
- **Shipping Weight:** 1350 lbs

---

**EZ-25E-3S**

- **Operation:** Elec-Hydraulic
- **Voltage:** 115V, 1PH
- **Capacity (lbs):** 2500
- **Lowered Height (in):** 1.75
- **Raised Height (in):** 30.00
- **Maximum Pallet Size (in):** 44 x 48
- **Ramp Positions:** 3
- **Installation:** Anchor To Floor
- **Shipping Weight:** 1350 lbs

* Floor anchors are optional for EZO-25E and are required for EZO-25E-3S.

---

**Standard Features:**

- Feet-clear safety circuit automatically stops the platform descent at 9 in. above the floor surface preventing unintentional foot entrapment under the platform or pallet.
- Safety warning lights and alarm alert operator before the platform lowers from the intermediate safety stop.
- Platform safety covers guard pinch points around mast and mast rollers.
- Chain cover guards pinch points around the upper chain wheel.
- Hydraulic power unit with unitized control valves and reservoir.
- 1 HP, 115 V, electric motor.
- 40.50 in. diameter rotating disk supported by 32 precision ball bearings.
- Automatic platform lock prevents platform rotation in the lowered position.
- Integrated approach ramp.
- Lifting tabs and platform catches for transporting with a forklift.
- Rear leveling feet (Model EZO-25E).
- Model EZO-25E-3S provides three ramp position options and a pallet stop.
- Durable powder coated finish.
