The Ram Squared Twin Cylinder System

5-Position Safety Locking System

35-6350

The MC625R Heavy Duty Air Lift is how K&L Supply defines Air Superiority. This lift combines the best features of our MC655R hydraulic lift with the convenience of air. The new Ram Squared twin cylinder system gives the MC625R Heavy Duty Air Lift a rated working capacity of 1750 lbs. Optional side panels, now with our redesigned fastmount system, increase the working width of the MC625R Heavy Duty Air Lift to 56.5 or 68.5 inches, allowing the widest utility vehicles and golf carts to be serviced. An easy to install extension is also available, adding two feet front or rear to the overall length for custom bikes. Combine those features, plus the value you expect from K&L, and you have a lift that will be right for all of your needs.

MC625R Heavy Duty Air Lift
