

PALLETPAL® FULLY AUTOMATIC PNEUMATIC-ACTUATED

For Use Where Loads Vary Widely and are Changed Frequently

The Pneumatic Option PalletPal® provides all the performance of our spring unit, but uses an airbag that operates on shop air. It automatically positions loads weighing up to 4,500 lbs with as little as 80 psi.

Best used with uniform loads

Air bag fully protected in down position.

Phenolic frame cover (optional).

Low-friction, bearing supported turntable for near-side loading and unloading.

Fully guarded easily accessible air outlet and gauge.

Rugged lift table type frame for loads up to 4,500 lbs.

Wide base for free standing stability.

Fork pockets for relocation by fork truck.

CAPACITY	LOWERED HEIGHT	RAISED HEIGHT	APPROX. SHIPPING WEIGHT
400-4,500 lbs.	9½"	30½"	615 lbs.
