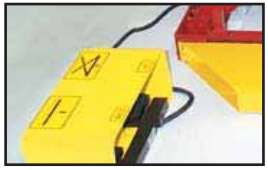
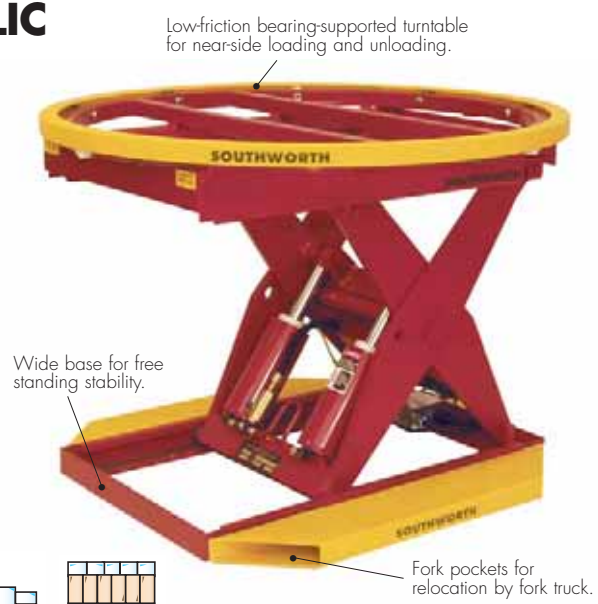
PALLETPAL® POWERED-HYDRAULIC

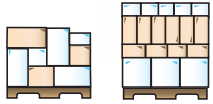
When loads, weights, pallet sizes or product dimensions vary greatly, a Powered PalletPal® with total operator control is the solution. A foot control allows the operator to adjust the load to an infinite number of positions up to 32¾" (plus pallet), so it is always at the most comfortable height for loading and unloading. The manual turntable allows quick and easy rotation of the load so that the operator is always working on the near side, eliminating reaching, stretching and walking around. Built in fork pockets provide both ease of portability and additional stability.

The Powered PalletPal® Hydraulic works on standard 115V power and is available in 2,000 and 4,000 lb. capacities.



Foot control positions the load at any height within the unit's working range.





Best used with non-uniform loads (mixed product sizes)

MODEL NO.	CAPACITY	TURNTABLE	LOWERED HEIGHT	RAISED HEIGHT	POWER	APPROX. SHIPPING WEIGHT
PPH2-24	2,000 lbs.	43⅝" DIAMETER	8¾"	32¾"	115/1/60	700 lbs.
PPH4-24	4,000 lbs.	43⅝" DIAMETER	8¾"	32¾"	115/1/60	760 lbs.
